

Help Habitat make the #CostOfHome something we all can afford.

In Kansas,

# 1 IN 10 HOUSEHOLDS

## spend half or more of their income on housing.

In total, 40% of renters and 15% of homeowners are cost-burdened, paying more than 30% of their income on housing.

**Housing cost burdens are especially common for those with lower incomes.**

**Home values have increased faster than income.**

Wage needed to afford fair market rent for a two-bedroom home in Kansas:

**\$16.81/hour<sup>3</sup>**  
(**\$34,975/year**)

Minimum wage in Kansas:

**\$7.25/hour<sup>3</sup>**

Income needed to purchase a median-value home in Kansas:

**\$44,741<sup>4</sup>**

Median income of Kansas renters:

**\$38,400<sup>1</sup>**

## The supply of affordable homes is dwindling in Kansas.

Shortage of affordable and available homes for extremely low-income renters:

**-44,042<sup>5</sup>**

This is the number of homes that would have to be built or otherwise made available to adequately house all extremely low-income renters in Kansas.

## Racial inequities in housing remain substantial in Kansas.

## Habitat for Humanity

Habitat for Humanity knows that safe, decent and affordable shelter plays a critical role in helping families create lives filled with possibility and progress. Caught in cycles of unpredictable rent increases, overcrowded conditions, or lack of access to land and affordable housing, many families live with a constant burden of uncertainty, stress and fear. Habitat for Humanity serves as a voice for people in need of decent housing by working to change laws and shape policies that affect access to housing. Our advocacy approach is based on decades of on-the-ground experience and policy expertise. In our deep understanding of housing and its role in providing opportunities for families, we seek to reform laws in a nonconfrontational, nonpartisan way.

## Cost of Home

Cost of Home is a five-year advocacy campaign through which local Habitat organizations, partners, volunteers and community members in more than 300 communities nationwide are working to increase housing affordability for 10 million people. Habitat organizations are advocating at all levels of government to advance policy solutions that: 1) increase and preserve the supply of affordable homes, 2) equitably increase access to credit, 3) optimize land use for affordable homes, and 4) develop and ensure access to communities of opportunity.
